NUMBER 15.

Village Corporation Meeting.

The Village Corporation meeting was held Tuesday evening, April 9, at the Norway Opera House, at 7:30 o'clock, with a good attendance present.

The meeting was called to order by the clerk, F. E. DeCoster, and A. S. Kimball was chosen moderator. The officers elected for the ensuing year were as follows:

Assessors—Geo. W. Holmes, Stuart W. Goodwin, W. A. Bicknell.
Clerk—F. E. DeCoster.
Treasurer—A. S. Kimball.
Chief Engineer—Geo. F. Hathaway, John P. Cullinan, P. R. Richardson.

Fire Police—G. A. Morse, S. G. Hatch, Guy Estes, George Walker, H. E. Mixer, E. C. Winslow.

It was voted to have all poll taxes assessed in 1912 made payable on the first of July, 1912; and all taxes other than poll taxes made payable Nov. 1, 1912.

Interest will be charged on taxes unpaid Jan. 1, 1913, will bear interest at 6 per cent.

The article relating to the appropriation of money for the police service was the article of most interest this year.

There was considerable discussion concerning the same. F. H. Noyes spoke in the interest of the people, giving as his reason that a night police was a safety guard to the public in cases of fire, and that a night watchman who passes through the village during the night, as has been proved in the past year, was a safety against fire. He stated that a village of this size should not be without its night police. The opposite side was represented by George Carter, who thought that the supporting of the night police was unnecessary. He held that the raising of \$600 for this purpose was needless as there was a large number of constables who kept the peace, and each one had to settle his own neighborhood guard. He held that if the people of Main street desired someone to patrol that one street they could club together and hire someone.

When the matter was put before the meeting and voted it was found that 45 were in favor and 40 opposed; therefore \$600 was voted as compensation for police service for the ensuing year.

The next article to take action upon was to see if the corporation would purchase a chemical engine. Stuart W. Goodwin suggested the purchasing of a 40-gallon chemical engine, which would be a good business investment, secure the safety of the public against fire as there are many cases when fire breaks out that by the use of this two-wheeled chemical engine which could go to any part of the village would be a great advantage. The matter was opened and discussed by various ones present, and it was voted to purchase the engine.

The matter relating to the placing of an incandescent light near P. R. Brooks' was discussed, and the article was voted to place a light near the building of a brick sidewalk in front of Engine House hall on Main street, from the brick sidewalk to the bridge, was left to the assessors.

It was also left with the assessors to decide about the re-location of street lights as would seem necessary, in changing from arc light to incandescent.

It was voted that \$150 be appropriated for the building of a sidewalk, if found necessary by the assessors.

It was also voted by the corporation to abate the taxes against the heirs of William S. Pratt, for the years 1911-12.

In regard to the new chemical engine it would be necessary to have some place to keep the same and keep it warm. Last year \$200 was voted for repairs on Engine House and only about one half that amount was expended. The assessors wished an expression of the meeting to see if they were in favor of using the necessary amount to build a place for the engine, connecting it with a steam pipe from Cummings', which was to be located at the rear of the house, which is located between E. R. Bicknell's and the opera house, and the expression of the meeting was in favor.

Norway People Have Absolute Proof of Deeds at Home.

It's not words but deeds that prove true merit.

The deeds of Doan's Kidney Pills, For Norway kidney sufferers, Have made their local reputation.

Proof lies in the testimony of Norway people who have been cured to stay cured.

George H. Boswell, Marston St., Norway, Me., says: "About six months ago my kidneys became disordered and I suffered from pain across the small of my back. I felt languid nearly all the time and did not sleep well. The kidney secretions were scanty and uncutaneous and I had a too frequent desire to void them. My body bloated at times and I was subject to dull headaches. Knowing of the merits of Doan's Kidney Pills, I procured a supply at Stone's Drug Store and began using them. They cured me and I am now free from kidney trouble."

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and no other.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring to the system its normal work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars reward for any case that fails to cure. Send for list of testimonials.

WEST FRYEBURG.

Orin Heath.
Just over the State line in East Conway at the home of John Heath occurred the death of Orin Heath, an octogenarian and famous in Fryeburg and contiguous towns as a hunter, trapper and angler from his youth.

The immediate cause of death was pneumonia though he had been suffering from a complication of ailments for many months before release came on April 8d, 1912. Orin, the youngest of the four children born to John Heath of East Conway and Mary Colby of West Fryeburg at their parental home, now the homestead of Edwin H. Heath, was born October 11th, 1829, remaining at his parental home until his marriage when a little over 20 years old. He removed with his wife, Sallie Smith of Chatham, to a farm in his wife's neighborhood and there in the house built by his father, a carpenter by trade, he reared the family of whom four survive.

In 1862, Orin Heath enlisted in a Conway, N. H., regiment and in the battle of Gettysburg was wounded by a bullet, almost disabling him for further service. But his patriotism and loyalty were lifelong as befitting the son of a veteran of the War of 1812 and grandson of a soldier of the Revolutionary War.

Other sons who survive are Elsie, R. of Fryeburg, and during his active years an ardent worker in his cause. In politics he was a republican; in religion by preference a Methodist.

Something over thirty years ago Mr. Heath suffered a severe loss in the death of his wife, the mother of his family, and later he married Mrs. Jessie (Malcolm) Hill, the wife of a deceased comrade. Their removal to her home followed and the homestead of Orin Heath passed to a few years to the present time.

Arthur Dawing. Following the death of second wife a few years ago, Mr. Heath's home has been with the family of his son John, where he has been faithfully tended in his long illness. Other sons who survive are Elsie, who lives in Bridgton, and Charles, whose home is in Massachusetts. One daughter, Mrs. Mary Gardner, lives in Conway, N. H.

The funeral on Friday, April 5th, was well attended. Rev. B. Stone of Fryeburg being the officiating clergyman. The bearers representing Grover Post, G. A. R., were Henry Andrews, James Johnson and J. Hubbard of Fryeburg, assisted by undertaker H. Hodgson.

Rev. W. S. Carve delivered a sermon founded upon John 20:15, on Easter. Some epigrams were by his discourse followed by a beautiful hymn.

"We cannot see beauty above that which is within us." "What is life, with its hardships, losses and disappointments? Life is a response to the presence of the Infinite." "The greatest blessing we seek to us is 'disgrace'."

"Many are seeking their Christ in the empty tomb instead of turning their faces towards the risen Christ." "We find our greatest pleasure in the ordinary things of life—the flowers, the birds, the hills, the valleys and the sea—in these we find our Christ, the heart of finite responding to the heart of the Infinite."

Mr. Carve rendered a solo appropriate to the theme. The decorations were potted plants and a bouquet of Easter lilies.

If you take Hood's Sarsaparilla and receive as much benefit from it as did Mr. Benjamin C. Rose of Saunderson, R. I. He says, "My sickness and bad feelings from dyspepsia and nervous prostration extended over seven years. Physicians, medicines and treatments gave practically the same result, — no help, but Hood's Sarsaparilla did the work for me and did it well. Friends said I did not seem to be the same man. Hood's Sarsaparilla is a great spring medicine, a fine stomach and nerve tonic."

Miss H. M. Taylor's Millinery Opening.

Miss H. M. Taylor shows 180 trimmed hats. She has for assistants Angie Young of Boston, Mrs. Gertie Allen and Marion Libby.

The window has a black background against which the trimmed millinery shows to advantage. A basket of roses and a beautiful asparagus fern, ten feet in length and well proportioned are the decorations aside from the trimmed hats. The hat on the figure is a large one of white braid, faced with black velvet, the front extending forms a wing across the front, black willow plumes and wreath. A turban of hemp, the crown of burnt hemp and the brim of black hemp with band, trimmed with French plumes and fancy straw ornament.

An all silk hat of changeable royal purple and green, brim bound with purple velvet folds, a bunch of rosebuds and forget-me-nots. A walking shape of white pyroxaline braid, trimmed with white gold printed chiffon and a wreath of small pink roses. A large, black chip hat, crown of printed black and gold chiffon, Psycho wings and knot centre. A small, tam, brass tugal crown, macreme brim, black velvet ribbon band and a bunch of white osprey on side, gilt ornament.

Next to the maline turban the straw tam is most popular, and this is followed by the derby shapes. The tam-o'-shanter and draped hat now in vogue means business for the hat-maker's work, but later on undoubtedly the pressed hat will assume first place.

Late last season hats made of Turkish bath toweling first appeared and so successful was the experiment that this summer we are to have dozens upon dozens of new ideas in the bath towel hat, ranging from Dutch bonnets and baby caps to smart looking sailors, both rolled brim and mushroom and other shapes, large and small. Moreover, we are to have entire gowns made of bath towel, made from toweling, so don't overlook this novelty in preparing your summer campaign.

It hardly seems necessary to refer to taffeta, it is so very much in evidence that it could not possibly be overlooked. In the pale pastel effects it is very lovely and is used by the smartest milliners in connection with blood and other fine laces. A charming trimming for a hat of this kind is either some of the exquisite shaded orodent novelties or a delicate shade of small ribbon or silk flowers with tinsel foliage. These ultra delicate colorings and materials are decidedly attractive and quite at variance with the brilliant colors which really have first place.

It is difficult to describe one of the queer angles which prevail on many of the new hats, but you will recognize it when you see it.

There are just two predominating characteristics of the spring hats—crown size large enough to allow the hat to rest well down on the head, and the upward tilt of the brimmed shapes, which may have dashing dents on the side or back, or show the brim only gently rolled at the edge. For wear with the spring suit or even with the dressier costume, the small or the medium sized hat will undoubtedly be preferred, although later on the fingerette gowns will bring out the pictureque large hats which are always in good taste for dressy occasions.

The woman who is loath to give up the snug little bonnet shapes she found so becoming during the winter, will be delighted with the close models which retain the close lines but are developed in suitable materials.

The more elaborate headgear is largely of the broad-brimmed, pictureque variety. The leghorn hat, however, trimmed with always a good choice for the youthful face.

There was a corona hat of tagal braid in natural linen color, broad band black velvet under a central and smaller band of lace, gilt and pearls, plumes of primrose pink and black, two black plumes. A Georgette hat of Ranie straw, in the brass colors faced with macreme lace over pale blue, brass willow plume and brass velvet ribbon, ornament in crystal. A Gay flower hat of all violets, violet ribbon bow with cerise velvet knot. A tricorne hat of black tagal faced with linen color macreme, plume of primrose, piping same. Turban in gray, rough straw, wing of white with edged with straw, wreath of moss rosebuds and foliage.

Neither of the alternates were used. The question for debate was: "Resolved That commercial reciprocity with Canada is desirable." Paris high negative. Both sides showed a large amount of careful study and excellent knowledge of the subject. The negative dealt with statistics and that together with the fact that the Buckfield boys way toward winning the debate. The judges, Hon. A. J. Stearns of Norway, Prof. Newton of Hebron Academy and Harry Looney of Bates College, after a short consultation gave the award to the negative. Are Microbes in Your Scalp?

It Has Been Proved That Microbes Cause Baldness.

Professor Unna of Hamburg, Germany, and Dr. Sabouraud of Lyons, France, dermatologists, discovered that a microbe causes baldness. Their theory has time and again been amply verified through research experiments carried on under the observation of eminent scientists. This microbe lodges in the sebaceous glands, which is the natural hair oil gland, and when permitted to flourish it destroys the hair follicles and in time the pores entirely close, and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the growth of hair being revived.

We have a remedy which will, we honestly believe, remove dandruff, exterminate the microbe, promote good circulation of the scalp and around the hair roots, tighten and revitalize the hair roots and overcome baldness, so long as there is any life left in the hair roots.

We back up this statement with our own personal guarantee that this remedy called Rexall "93" Hair Tonic will be supplied free of all cost to the user if it fails to do as we state.

It will frequently help to restore gray and faded hair to its original color, and, profiting loss of color has been caused by disease, yet it is in no sense a dye. Rexall "93" Hair Tonic accomplishes these results by aiding in making every hair root, follicle and pigment gland strong and active, and by stimulating a natural flow of coloring pigment throughout the hair cells.

We exact no obligations or promises—we simply ask you to give Rexall "93" Hair Tonic a thorough trial and if not satisfied tell us and we will refund the money you paid us for it. Two sizes, prices 50 cents and \$1.00. Remember, you can obtain it in Norway only at our store.—The Rexall Store, R. P. Stone, 143 Main St., Norway, Me.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable by kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Its solid tires eliminate all tire troubles due to punctures and blowouts. Its wheels are sufficiently high to give ample clearance, and unlike low wheels, they will not drop into chuck holes until the body of the car rests upon the roadbed, but will strike bottom and get traction in time to pull out. Its engine is air-cooled; no water to freeze and crack the water jackets. It is simple and practically fool-proof. Quite an excitement prevailed here Sunday evening, when the word went forth that Grange hall was on fire. The damage was very slight, however, and was caused by a match or cigarette stub, which was dropped of the building.
Considerable fire water was floating around town on Sunday (as usual) and several young men were badly intoxicated. Only one arrest was made, that being Elmer Stuart, who was arrested for disturbing the peace. Stuart was up before Trial Justice Briggs, Monday morning, and sentenced to thirty days in jail and costs, which were \$4.87. On plea, the sentence was suspended upon agreement of good behavior.

Davis gave a most interesting sermon. There was a good congregation at the afternoon service, and a full house in the evening at the concert.
The church was tastefully decorated in green and white, with Easter lilies, carnation pinks and other hot house flowers.
